

CSA1509 – Cloud Computing and Big Data Analytics

EXPERIMENT - 7

7. Create a simple cloud software application for Students Attendance System using any Cloud Service Provider to demonstrate SaaS include the necessary fields such as name of the students, course, present, Absent, course attendance, OD request, grade, attendance percentage, etc.

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/abcportal66/environment/development/student-attendance-system/#Form:Student_Attendance`. The application is titled "Student Attendance System" and is in "Development" mode. The left sidebar shows a menu with "Student Attendance" and "Student Attendance Report". The main form area is titled "Student Attendance" and contains the following fields:

- Student ID * (text input with placeholder "#####")
- Student Name * (two text inputs for First Name and Last Name)
- Course * (dropdown menu with "-Select-" selected)
- Date (text input with placeholder "dd-MMM-yyyy")
- Attendance Status * (radio buttons for Present and Absent)
- Course Attendance * (text input with placeholder "#####")
- Total Classes * (text input with placeholder "#####")
- Attendance Percentage (text input with placeholder "#####")
- OD Request * (radio buttons for yes and no)
- OD Reason (text input)
- Grade * (dropdown menu with "-Select-" selected)

The screenshot shows the same web browser window, but the form is scrolled down to show the bottom section. The fields visible are:

- Course Attendance * (text input with placeholder "#####")
- Total Classes * (text input with placeholder "#####")
- Attendance Percentage (text input with placeholder "#####")
- OD Request * (radio buttons for yes and no)
- OD Reason (text input)
- Grade * (dropdown menu with "-Select-" selected)
- Faculty Name * (two text inputs for First Name and Last Name)
- Remarks (text input)
- Submit (blue button)
